

Alex Mann – Jammer Classic Wish Child 2010

Alex was diagnosed with Ewing Sacorma in 2009. His wish was to go to Maui, Hawaii at Christmas, 2010. Alex is now in his second year studying Bio-Medical Computing at Queen's University. Alex is doing great!

The family had an incredible trip and his siblings were touched in ways that were unimaginable.

Alex and his family are deeply grateful to The Jammer Classic for helping make Alex's most heartfelt wish come true.
