

Meghan Burns – Jammer Classic Wish Child 2009

Meghan was diagnosed with Large Cell Lymphoma in 2006. Her wish was to be an extra on set with Donald Sutherland. Although she was not able to do a scene with Mr. Sutherland she did get to meet him. Meghan is now in her first year studying Geographic Analysis at Ryerson University. Meghan is doing great!

The family had an amazing experience and Meghan enjoyed sharing her thrilling experience with them.

Meghan and her family are deeply grateful to The Jammer Classic for helping make Meghan's most heartfelt wish come true.
