

Jammer Classic Memorial proudly sponsors Oliver's Wish

In 2008, at the age of 16, active teenager Oliver was diagnosed with Medulloblastoma, a tumor that originates in the brain.

When Oliver was told by a social worker at McMaster Hospital that he was eligible to be granted a wish through The Children's Wish Foundation of Canada, he was ecstatic!

Says Mom Leslie, "His mind just worked right from the start when he received the news. He changed his mind so many times. We had so many conversations. Thinking and dreaming about his wish was huge. He lived, breathed and talked about it all the time. We knew that with treatments and the hospital and doctor's visits, it would be best to wait until he could truly enjoy his wish."

Oliver dreams of travelling and visiting many places around the world, so it came as no surprise when he chose a travel wish. He is finally able to do the travelling that his heart so desires.

His heart-felt wish of travelling to Negril, Jamaica with his parents and younger brothers and sister will take place later this month. He is very excited that there is an activity program for teens at the resort they are staying at and is looking forward to all of the things that he can do while he is on his dream vacation.

"I am so thrilled and thankful for this very special wish that Children's Wish is granting my son. It means the world to Oliver and our family."

Oliver's family is truly grateful for the support of Children's Wish and the Jammer Classic Memorial for making Oliver's wish come true!

Oliver's wish was generously sponsored by the 2011 Third Annual Jammer Classic Memorial Field Lacrosse Tournament in memory of Jamieson Kuhlmann.

The Children's Wish Foundation of Canada works with the community to provide children living with life threatening illnesses the opportunity to realize their most heartfelt wish. For additional wish stories, go to www.childrenswish.ca and click on Wish Tales.
